After a long tiring journey
from Africa through the straits of Gibraltar,
a friendly and clumsy stork called **Sebastian**
came looking for a place to sleep.

Suddenly he saw an insect, <u>Daniel</u> the *dragonfly*.

Hello, what's your name?

My name is **Daniel** the dragonfly.
What is your name?

My name is **Sebastian** the stork.
I am looking for a place to stay.
Can I stay with you?

Sure, but can you lay eggs in water?

No.

Can you fly backwards?

No.

Do you eat insects for supper?

No.

Then you won't be comfortable here, but I could take you to see the reptile.

Suddenly he saw a reptile,
<u>Lizzie</u>, the *lizard*.

Hello, what's your name?

My name is **Lizzie**
the Lizard.
What is your name?

My name is **Sebastian** the stork.
I am looking for a place to stay.
Can I stay with you?

No.

Sure, but can squeeze through small spaces?

No, I can not.

Can you grow a new tail?

No.

Do you swim?

Then you will not be comfortable here.

Let me take you to my friend the fish.

Suddenly he saw the fish, Federico, the *fish*.

Hello, what's your name?

My name is **Federico** the fish.
What is your name?

My name is **Sebastian** the stork.
I am looking for a place to stay.
Can I stay with you?

Sure, but can you swim?

No.

Do you eat Algaes and plankton?

No.

Do you sleep between rocks in the water?

No.

Then you won't be comfortable here,
but i could take you to see my friend the amphibian.

Suddenly he saw the amphibian Francisca, , the *frog*.

Hello, what's your name?

My name is **Francisca** the frog.
What is your name?

My name is **Sebastian** the stork.
I am looking for a place to stay.
Can I stay with you?

Sure, but can you do a metamorphosis?

No.

Do you eat insects?

No.

Do you sleep between the water and rocks?

No.

Then you won't be comfortable here,
but i could take you to see my friend the mammal.

Suddenly he saw a mammal, Lili, the *lynx*.

Hello, what's your name?

My name is **Lily** the lynx.
What is your name?

My name is **Sebastian** the stork.
I am looking for a place to stay.
Can I stay with you?

Sure, but can you hunt rabbits?

No.

Do you jump?

No.

Do you sleep
on the floor?

No.

Suddenly he saw a bird, Berto the *bird*.

Hello, what's your name?

My name is **Berto** the bird.
What is your name?

My name is **Sebastian** the stork.
I am looking for a place to stay. Can I stay with you?

Sure, but can you fly?

Yes.

Do you eat fish and insects?

Yes.

Do you sleep in a nest?

Yes.

Then you will be comfortable here, you are a bird too, you are at home!

FINALLY THEY CELEBRATED ALL TOGETHER THAT SEBASTIAN FOUND A HOME.

Here are some special facts about Doñana and our adventurers storks:

Doñana Fauna's:

Doñana is the natural space with the highest biodiversity in Europe, in particular bird species, which are very important and numerous. Over 300 bird species inhabit this territory, of which nearly 130 breed here.

The Ultimate Pitstop:

Doñana is situated perfectly along the flyway between Europe and Africa. White storks use the area to rest and refuel before attempting the treacherous 14-kilometer sea crossing across the Strait of Gibraltar.

Unusual Nests:

While storks typically build nests high on top of trees or human structures, storks in Doñana are famous for building their heavy stick nests on unconventional structures. Visitors can frequently spot them using palm trees and the ruins of ancient coastal watchtowers.
